Tried by Thickly Settled Community.

Beginning with Friday of next week, when all acts of the jast Legislature. Board of the Southern Baptist Convenotherwise specified, go into effect, a novel experiment in government will Graves, M. D., at Canton, China, be begun in the county of Alexandria. It is nothing less than the creation Dr. Graves was born in Baltimore May of the office of police justice for the county, with the same jurisdiction as enjoyed by similar officers in cities,

Representatives of Alexandria county who appeared before the Legislature made the statement that it is practically all town. There are many incorporated and unincorporated communities, situated so closely together that the lines touch. The suburban growth of Washington has reached out and almost covered the entire county. Passengers on trolley lines in that vicinity are more impressed with this fact each day.

In days to come, what is now Alexandria county will probably be all one city. It will comprise that part of what was once the District of Columbia, which was ceded back to Virginia when the Federal government felt it did not want and could not use all the land donated, and retained only that part lying north of the Promac, donated by Maryland.

Justices of the peace are not always well versed in law, and thicky settled communities, it was felt, suffer by lax administration. So in future all minor offenses and preliminary hearings in felony cases will go before the police justice, who is to be appointed by the Circuit Court. All justices of the peace are required to make criminal warrants returnable before the new official.
